# HSBC-3140-Add-Workflow-Monitoring-Service-to-the-Reference-Data-application

## Add Workflow Monitoring Service to the Reference Data application

Feature HSBC-3140

Also In: 2.8.1 2.9.0

We've added the Workflow Monitoring Service to the Reference Data application.

This service will populate the `workflow.events` metric with the events that are processed by that workflow and can be used to create monitoring dashboards.
