HSBC-3668

Add model information to Cards and Non Mon response[^]_□

Feature FTMT-29505 HSBC-3668

We've updated the response object from the Cards authorization and Non Mon endpoint, to include the model information that was used to reach an outcome. The `model` field includes the following structured information:

```
"model": [  
  {  
    "modelId": "6f41c74c7d491cd8",  
    "modelVersionId": "53d00a6cc43347f7",  
    "modelName": "dummy_model_test",  
    "outcome": "isfraud",  
    "score": [  
      0.9340874776977786,  
      0.0659125223022215  
    ]  
  }  
]
```

Copy
